

eWork ver. 1.200 Release Notes

1. Sign Fabrication Work Order is now fully incorporated into eWork. Please note the following rules:
 - a. In order to associate a Sign Fabrication WO to a Sign WO, they both need to be in the same package.
 - b. Sign Fabrication WO requires at least 1 attachment.
2. Editing function is available for Clerical/Yard Supervisor roles to fully edit Maintenance work orders without restrictions.
3. Respective yards will receive an email notification upon Markout Completion date fill in on General Work Order.
4. Yard Supervisor may create packages for Sign Maintenance WO which require a Sign Fabrication.
5. All crew chiefs will now be displayed on dropdown for work assignment regardless of yard to allow for flexibility.
6. Miscellaneous bug fixes.

Reminder: The eWork application is only compatible with Google Chrome web browser. We may not be able to provide support if a different web browser is used.
