

eWork ver. 1.210 Release Notes

1. “Sign Fab No” field has been relocated from the header to the Sign Line Task items. Multiple Sign Fabrication Work Orders may now be associated to a Sign Work Order. Please note, Sign WO and Sign Fab WO must be in the same package in order to be associated.

The screenshot shows the 'Create Sign Line Task' form in the eWork system. The 'Sign Line Task Item' section is highlighted with a red box. Within this section, the 'Sign Fabrication Order No' field is circled in red, showing the value '114102'. A dropdown menu is open above this field, displaying a list of available Sign Fabrication Work Orders (Sign Fab WO) with their details, including W.O. #, SR #, Is I/S, Primary St., Cross St., End of Block St., Service Rd., Maint. Area, IRZ, Yard, CD, Job Type, Contact No., Organization, Approver, Approved By, Assigned Date, Project No., Complete By, and W.O. Status. The selected item is '114102 [9999 - 1HR PKG 8AM-6PM X-SUN, PLO 6PM-12MIDNIGHT (12X36)]'.

2. Addition of Meter Shop to General Work Order. Meter shop requests need to have the “Yes” option selected in order to route the Work Order correctly.

The screenshot shows the 'Create General Work Order' form in the eWork system. The 'General Work Order' section is highlighted with a red box. Within this section, the 'Meter Shop' field is circled in red, showing the value 'Yes'. The form includes various fields for work order creation, such as 'Allow Others to Add into Package?', 'Package ID', 'Service Request #', 'I/S?', 'Markout', 'Primary Street', 'Begin Limit', 'Maintenance Area', 'I. R. Zone', 'Yard', 'Citywide WO (Ave 19)', 'Council District', 'Job Type', 'Organization', 'Project No.', 'Job Desc/Eng Comments', and 'Approver'.

3. Yard Supervisor/Clerical may delete Maintenance Work Orders that they directly create.
4. Miscellaneous bug fixes.

Reminder: The eWork application is only compatible with Google Chrome web browser. We may not be able to provide support if a different web browser is used.
